Subject Index
Canadian Journal of Animal Science, Volume 90, 2010

Acid detergent lignin, **605**
Acute phase proteins
  fecal endotoxins in cows, 591
Adipocyte, **602**
  estimation methods of goat fat reserves, 437
Agassiz layer lines
  performance of Agassiz layer lines, 341
Ageing
  ageing time effects on beef quality, 361
Alfalfa
  anthocyanidin-accumulating *Lc* alfalfa, 401
Amino acid, **595**
Ammonia emissions
  NH_3 emissions from swine production in Canada, 145
Anoestrus, post-partum
  nursing and reproductive behaviour in beef cattle, 137
Anthocyanidin
  anthocyanidin-accumulating *Lc* alfalfa, 401
Antibiotic
  management strategies for weanling pigs, 447
Antler velvet
  evaluating velvet antler in red deer, 13
Apoptosis
  proteolytic and apoptotic components in lambs, 421
Artificial insemination, fixed-time
  presynchronization and equine chorionic gonadotropin, 23

Backfat thickness
  backfat thickness and reproductive efficiency of sows, 429
Barley
  hulless low-phytate barley for swine, 393
  starch digestibility of dry rolled barley grain, 275
Bayesian analysis, **603**
Beef cattle
  ageing time effects on beef quality, 361
  crop residues for pregnant beef cows, 69
  liquid hog manure and grass productivity, 233
  micronutrient concentrations of beef cows, 563
  nursing and reproductive behaviour in beef cattle, 137
  resistance of biceps femoris to tenderization, 495
  supplementation of wintering cow rations, 546
  transport conditions of slaughter on welfare, 159
  transport of cattle – effect on dark cutters, 471
  vitamin E inhibits *trans* 10-18:1, 9
Behaviour
  dairy cattle feeding behaviour, 303
  dairy heifer nutritional behaviour, 295
  extended photoperiod for lactating sows, 311
  feeding amount and sorting behaviour, 1
  grazing preferences in sheep and cattle, 285
  nursing and reproductive behaviour in beef cattle, 137
  puerperal behaviour in primiparous goats, 483
Beta-agonist
  effect of ractopamine on energy balance, 77
Bias, experimental, **599**
Bloat, frothy
  bloat in grazing steers, 109
Blood acetate, **597**
Boar
  effect of storage on sperm quality, 389
Body condition score
  estimation methods of goat fat reserves, 437
Body reserves
  extra-feeding in mid-pregnancy and sow performance, 521
Body weight
  estimation methods of goat fat reserves, 437
  HP-cDDG in 'broiler diets, 505
  optimizing turkey slaughter weight, 349
Breast meat
  optimizing turkey slaughter weight, 349
Broiler
  broiler transportation in winter, 321
  citric acid and flavomycin in broiler, 57
  coated phytase in broiler diets, 529
  exogenous xylanases for broiler chickens, 221
  flaxseed enhances meat omega-3 fatty acid, 203
  gut morphology and nutrient retention in chicks and ducklings, 513
  HP-cDDG in broiler diets, 505
  in vivo and post-mortem lipid oxidation in poultry, 197
Bos taurus autosome 27 (BTA27)
  refined mapping of a QTL for SCS in the German Holstein, 169

Calcium, **602**
Calf management
  cow-calf production, **604**
  nursing and reproductive behaviour in beef cattle, 137
Can-sugar
  canola seed fractionation by-products for dairy cows, 279
Canola
  canola seed fractionation by-products for dairy cows, 279
  net energy of canola products in pigs, 213

Page numbers in bold refer to abstracts

Carcass characteristics
corn-, wheat- or triticale-DDGS for lambs, 99
estimation methods of goat fat reserves, 437
triticale-based DDGS for lambs, 87
wheat DDGS vs. corn DDGS in finishing rations, 259
Carrying capacity
liquid hog manure and grass productivity, 233
Caspase-3
protein degradation in lambs with metabolic acidosis, 537
Cattle
dairy cattle feeding behaviour, 303
effect of ractopamine on energy balance, 77
grazing preferences in sheep and cattle, 285
micronutrient concentrations of beef cows, 563
nursing and reproductive behaviour in beef cattle, 137
processing effects of CDC SO-I oat on steer performance, 271
stearoyl-CoA desaturase and CLA in milk fat, 575
supplementation of wintering cow rations, 546
transport conditions of slaughter on welfare, 159
transport of cattle – effect on dark cutters, 471
Cellular signals, **595**
Chicken
performance of Agassiz layer lines, 341
Citric acid
citric acid and flavomycin in broiler, 57
Clearance, **597**
Cold weather
broiler transportation in winter, 321
Conjugated linoleic acid
stearoyl-CoA desaturase and CLA in milk fat, 575
Continuous culture
essential oil effect on dairy ration in vitro, 413
Corn
corn-, wheat- or triticale-DDGS for lambs, 99
crop residues for pregnant beef cows, 69
high-moisture corn and phytase for pigs, 45
wheat DDGS vs. corn DDGS in finishing rations, 259
Cow-calf production, **604**
Crop residue
crop residues for pregnant beef cows, 69
Cycloheximide
porcine oocyte nuclear kinetics, 189

Dactylis glomerata L.
bloat in grazing steers, 109
Dairy
canola seed fractionation by-products for dairy cows, 279
dairy cattle feeding behaviour, 303
dairy cows fed flaxseed, 115
dairy heifer nutritional behaviour, 295
essential oil effect on dairy ration in vitro, 413
fecal endotoxins in cows, 591
feeding amount and sorting behaviour, 1
presynchronization and postinsemination strategies, 35
stearoyl-CoA desaturase and CLA in milk fat, 575
Dark cutter
transport of cattle, 471
Deer, red
evaluating velvet antler in red deer, 13
Digestibility
coated phytase in broiler diets, 529
high-fat oat groats for weaned pigs, 65
triticale-based DDGS for lambs, 87
Distiller's grains
corn-, wheat- or triticale-DDGS for lambs, 99
in broiler diets, 505
triticale-based DDGS for lambs, 87
wheat DDGS vs. corn DDGS in finishing rations, 259
Duck
expression patterns of *MRF4* and *MYOG* in muscle, 179
fatty acid and TBARS in duck breast meat, 371
gut morphology and nutrient retention in chicks and ducklings, 513

Egg quality
xylanase wheat corn performance laying hens, 207
Embryo development
porcine oocyte nuclear kinetics, 189
Endotoxin
fecal endotoxins in cows, 591
Energy, **601**, **603**
net energy of canola products in pigs, 213
Energy balance
effect of ractopamine on energy balance, 77
Enzyme injection
resistance of biceps femoris to tenderization, 495
Epidemiology
micronutrient concentrations of beef cows, 563
Equine chorionic gonadotropin
presynchronization and equine chorionic gonadotropin, 23
Erythrocyte
in vivo and post-mortem lipid oxidation in poultry, 197
Expression pattern
expression patterns of *MRF4* and *MYOG* in muscle, 179

Faeces
fecal endotoxins in cows, 591
Fat reserve
estimation methods of goat fat reserves, 437
Fatty acid
fatty acid and TBARS in duck breast meat, 371
flaxseed enhances meat omega-3 fatty acid, 203
volatile fatty acids, **596**
Feed conversion ratio
HP-cDDG in broiler diets, 505
Feed efficiency
optimizing turkey slaughter weight, 349
Feeding amount
feeding amount and sorting behaviour, 1
Feeding behaviour
dairy cattle feeding behaviour, 303

Feedlot
processing effects of CDC SO-I oat on steer performance, 271
wheat DDGS vs. corn DDGS in finishing rations, 259
Fibre-protein
canola seed fractionation by-products for dairy cows, 279
Fine-mapping
refined mapping of a QTL for SCS in the German Holstein, 169
Flavomycin
citric acid and flavomycin in broiler, 57
Flax
dairy cows fed flaxseed, 115
flaxseed enhances meat omega-3 fatty acid, 203
Foetus
expression patterns of *MRF4* and *MYOG* in muscle, 179

Gaussian mixture models, **602**
Genes
milk yield and mammary development in sows, 379
Genetic drift
genetic diversity in swine breeds, 331
Genetic resources
performance of Agassiz layer lines, 341
Glucose, **596**
Goat
energy loss as exhaled CH_4, 585
estimation methods of goat fat reserves, 437
puerperal behaviour in primiparous goats, 483
Gonadotropin releasing hormone
presynchronization and equine chorionic gonadotropin, 23
presynchronization and postinsemination strategies, 35
Grazing
bloat in grazing steers, 109
grazing preferences in sheep and cattle, 285
micronutrient concentrations of beef cows, 563
Growth, **601**
extended photoperiod for lactating sows, 311
high-fat oat groats for weaned pigs, 65
Growth performance
citric acid and flavomycin in broiler, 57
exogenous xylanases for broiler chickens, 221

Health
dairy cattle feeding behaviour, 303
Heat production, **601**
Heifer, dairy
dairy heifer nutritional behaviour, 295
Hemolysis
in vivo and post-mortem lipid oxidation in poultry, 197
Hen, laying
xylanase wheat corn performance laying hens, 207
Holstein
refined mapping of a QTL for SCS in the German Holstein, 169
stearoyl-CoA desaturase and CLA in milk fat, 575

Immune development
development of the mucosal immune system, 129
Immunity
citric acid and flavomycin in broiler, 57
Insulin, **595**

Lactation
canola seed fractionation by-products for dairy cows, 279
extended photoperiod for lactating sows, 311
milk yield and mammary development in sows, 379
Lamb
corn-, wheat- or triticale-DDGS for lambs, 99
protein degradation in lambs with metabolic acidosis, 537
triticale-based DDGS for lambs, 87
Lc-transgene
anthocyanidin-accumulating *Lc* alfalfa, 401
Lignin
processing effects of CDC SO-I oat on steer performance, 271
Linseed meal
linseed meal and litter size, 491
Lipid oxidation
in vivo and post-mortem lipid oxidation in poultry, 197
Lipid peroxidation
effect of storage on sperm quality, 389
Litter size
linseed meal and litter size, 491
Litter weight gain
Saccharomyces cerevisiae fermentation product to sows, 229

Mammary gland
milk yield and mammary development in sows, 379
Management strategies
management strategies for weanling pigs, 447
Manure
liquid hog manure and grass productivity, 233
NH_3 emissions from swine production in Canada, 145
Mastitis
refined mapping of a QTL for SCS in the German Holstein, 169
Mathematical representation, **595**
Meat
ageing time effects on beef quality, 361
fatty acid and TBARS in duck breast meat, 371
flaxseed enhances meat omega-3 fatty acid, 203
handling at the slaughter plant, welfare and pork quality, 461
optimizing turkey slaughter weight, 349
resistance of biceps femoris to tenderization, 495
transport of cattle – effect on dark cutters, 471
Medicago sativa L.
bloat in grazing steers, 109
Meiosis
porcine oocyte nuclear kinetics, 189
Meta-analysis, **596**, **600**, **602**
Metabolic acidosis
protein degradation in lambs with metabolic acidosis, 537
Metabolism
effect of ractopamine on energy balance, 77
Meta-regression, **600**
Methane
energy loss as exhaled CH_4, 585
liquid hog manure and grass productivity, 233
Microbiota manipulation
development of the mucosal immune system, 129

Micronutrient
micronutrient concentrations of beef cows, 563
Milk yield, **596**
milk yield and mammary development in sows, 379
Mixed rations
energy loss as exhaled CH_4, 585
Model, **598**, **601**
Moisture enhancement
resistance of biceps femoris to tenderization, 495
Molly, **599**
Mortality
broiler transportation in winter, 321
Murciano-Grandina breed
puerperal behaviour in primiparous goats, 483
Muscle
ageing time effects on beef quality, 361
MyoG and *MRF4*
expression patterns of *MRF4* and *MYOG* in muscle, 179

National Research Council evaluation
NRC model wintering beef cow evaluation, 245
Neutral detergent fibre
indigestible NDF, **605**
NDF rate of digestion, **605**
Nitrogen
NH_3 emissions from swine production in Canada, 145
Nitrogen-to-carbohydrate degradation ratios
anthocyanidin-accumulating *Lc* alfalfa, 401
Non-fibre carbohydrate
proteolytic and apoptotic components in lambs, 421
Nursing, restricted
nursing and reproductive behaviour in beef cattle, 137
Nutrient digestibility
exogenous xylanases for broiler chickens, 221
hulless low-phytate barley for swine, 393
Nutrient requirements
NRC model wintering beef cow evaluation, 245
Nutrient retention
gut morphology and nutrient retention in chicks and ducklings, 513
Nutrition, **598**, **600**
micronutrient concentrations of beef cows, 563
Nutritional management
dairy heifer nutritional behaviour, 295
Nutritional value
high-fat oat groats for weaned pigs, 65

Oat
processing effects of CDC SO-I oat on steer performance, 271
Oat groats
high-fat oat groats for weaned pigs, 65
Oil, essential
essential oil effect on dairy ration in vitro, 413
processing effects of CDC SO-I oat on steer performance, 271
Oocyte meiosis
porcine oocyte nuclear kinetics, 189
Ostrich
sex determination in ostrich, 357
Ovsynch
presynchronization and postinsemination strategies, 35

Palatability
canola seed fractionation by-products for dairy cows, 279
Parameter estimation, **599**
Parity
Saccharomyces cerevisiae fermentation product to sows, 229
Parturition
puerperal behaviour in primiparous goats, 483
Pastures, mixed
bloat in grazing steers, 109
Pelleting
coated phytase in broiler diets, 529
Performance
coated phytase in broiler diets, 529
corn particle size and soybean treatment on steer performance, 555
corn-, wheat- or triticale-DDGS for lambs, 99
triticale-based DDGS for lambs, 87
xylanase wheat corn performance laying hens, 207
pH, **597**
Phosphorus, **602**
high-moisture corn and phytase for pigs, 45
Photoperiod
extended photoperiod for lactating sows, 311
Phytase, **602**
high-moisture corn and phytase for pigs, 45
Phytate P
hulless low-phytate barley for swine, 393
Pig, **602**
handling at the slaughter plant, welfare and pork quality, 461
high-fat oat groats for weaned pigs, 65
high-moisture corn and phytase for pigs, 45
hulless low-phytate barley for swine, 393
linseed meal and litter size, 491
management strategies for weanling pigs, 447
net energy of canola products in pigs, 213
porcine oocyte nuclear kinetics, 189
Piglet
extended photoperiod for lactating sows, 311
Plasma amino acid concentration
protein degradation in lambs with metabolic acidosis, 537
Polymerase chain reaction
sex determination in ostrich, 357
Population size
genetic diversity in swine breeds, 331
Postnatal immune development
development of the mucosal immune system, 129
Poultry, **601**
Presynchronization
presynchronization and equine chorionic gonadotropin, 23
presynchronization and postinsemination strategies, 35
Production efficiency
optimizing turkey slaughter weight, 349
Progesterone
presynchronization and equine chorionic gonadotropin, 23
Protein, acute phase
fecal endotoxins in cows, 591

Protein and carbohydrate sub-fractions
anthocyanidin-accumulating *Lc* alfalfa, 401

Ractopamine
effect of ractopamine on energy balance, 77
Ranch profitability, **604**
Rations, mixed
energy loss as exhaled CH_4, 585
Reproduction, **598**, **600**
Reproductive performance
backfat thickness and reproductive efficiency of sows, 429
Restriction fragment length polymorphism
sex determination in ostrich, 357
Review
dairy cattle feeding behaviour, 303
dairy cows fed flaxseed, 115
grazing preference in sheep and cattle, 287
handling at the slaughter plant, welfare and pork quality, 461
management strategies for weanling pigs, 447
RNA (mRNA) expression
protein degradation in lambs with metabolic acidosis, 537
Rumen carbohydrate
corn particle size and soybean treatment on steer performance, 555
Rumen fermentation
essential oil effect on dairy ration in vitro, 413
Rumen pH
essential oil effect on dairy ration in vitro, 413
Ruminal digestion, **599**
Runimant
grazing preferences in sheep and cattle, 285

Saccharomyces cerevisiae fermentation product
fermentation product for sows, 229
Salt
resistance of biceps femoris to tenderization, 495
Serum urea nitrogen
liquid hog manure and grass productivity, 233
Sex determination
sex determination in ostrich, 357
Sexual dimorphism
sex determination in ostrich, 357
Sheep
grazing preferences in sheep and cattle, 285
proteolytic and apoptotic components in lambs, 421
Single nucleotide polymorphism
stearoyl-CoA desaturase and CLA in milk fat, 575
Skin damage
handling at the slaughter plant, welfare and pork quality, 461
Slaughter
handling at the slaughter plant, welfare and pork quality, 461
Somatic cell score
refined mapping of a QTL for SCS in the German Holstein, 169
Sow
backfat thickness and reproductive efficiency of sows, 429
extended photoperiod for lactating sows, 311
milk yield and mammary development in sows, 379
Saccharomyces cerevisiae fermentation product to sows, 229
Sow nutrition/performance
extra-feeding in mid-pregnancy and sow performance, 521
Sperm mobility/quality
effect of storage on sperm quality, 389
Starch digestibility
starch digestibility of dry rolled barley grain, 275
Stearoyl CoA desaturase
stearoyl-CoA desaturase and CLA in milk fat, 575
Steer
bloat in grazing steers, 109
corn particle size and soybean treatment on steer performance, 555
effect of ractopamine on energy balance, 77
wheat DDGS vs. corn DDGS in finishing rations, 259
Straw
supplementation of wintering cow rations, 546
Stress, preslaughter
handling at the slaughter plant, welfare and pork quality, 461
Subacute ruminal acidosis
fecal endotoxins in cows, 591
Swine
NH_3 emissions from swine production in Canada, 145
Synchronization
porcine oocyte nuclear kinetics, 189
Systems biology, **598**
Systems dynamics, **604**

Temperature, **597**
Temperature gradient
broiler transportation in winter, 321
Tenderness
ageing time effects on beef quality, 361
resistance of biceps femoris to tenderization, 495
Thermography
evaluating velvet antler in red deer, 13
Thermostable-phytase
coated phytase in broiler diets, 529
Thiobarbituric acid reactive substances
fatty acid and TBARS in duck breast meat, 371
in vivo and post-mortem lipid oxidation in poultry, 197
Three-pool sequential equation, **605**
Threonine
gut morphology and nutrient retention in chicks and ducklings, 513
Tibia ash
citric acid and flavomycin in broiler, 57
Timed artificial insemination
presynchronization and postinsemination strategies, 35
Trans fatty acid
vitamin E inhibits *trans* 10-18:1, 9
Transport
broiler transportation in winter, 321
transport conditions of slaughter on welfare, 159
transport of cattle – effect on dark cutters, 471
Turkey
optimizing turkey slaughter weight, 349

Ubiquitin-mediated proteolytic pathway

protein degradation in lambs with metabolic acidosis, 537
proteolytic and apoptotic components in lambs, 421
Ultrasound
estimation methods of goat fat reserves, 437
Undegradable protein
corn particle size and soybean treatment on steer performance, 555
Urea concentration, **597**
Urea hydrolysis rate, **597**

Vaccenic acid
vitamin E inhibits *trans* 10-18:1, 9
Velvet antler
evaluating velvet antler in red deer, 13
Vitamin E
fatty acid and TBARS in duck breast meat, 371
in vivo and post-mortem lipid oxidation in poultry, 197
vitamin E inhibits *trans* 10-18:1, 9
Volatile fatty acids, **596**

Weaning, **597**
high-fat oat groats for weaned pigs, 65
management strategies for weanling pigs, 447
Weaning-to-estrus interval
backfat thickness and reproductive efficiency of sows, 429
Welfare
grazing preferences in sheep and cattle, 285
transport conditions of slaughter on welfare, 159
Wheat
corn-, wheat- or triticale-DDGS for lambs, 99
exogenous xylanases for broiler chickens, 221
wheat DDGS vs. corn DDGS in finishing rations, 259
Wheat straw
crop residues for pregnant beef cows, 69
Winter feeding
crop residues for pregnant beef cows, 69
NRC model wintering beef cow evaluation, 245
supplementation of wintering cow rations, 546

Xylanase
exogenous xylanases for broiler chickens, 221
xylanase wheat corn performance laying hens, 207
